

# BULL'S EYE™

A non-stop game of reflexes  
...and plungers!

**3+**  
"2-5"

Includes: **48** silly animal cards, **5** plungers  
that pick up cards, and rules for two games.

Do you have a quick eye and an even quicker plunger?

## OBJECT:

Prove your plunger skills by being the first to spot the match and plunge the silly animal card. Watch out for the Bull's Eye card – it's worth 3 points. Score the most points and win!

## SETUP:

1 Place all the cards in a 6 x 4 grid.

2 Place the tan-backed cards animal side down near the grid.

3 Everyone picks a plunger!

## PLAY:

- 1 FLIP OVER the top tan card (oldest player is in charge of flipping).

- 2 RACE to SPOT the match.

- 3 PLUNGE the matching card.

If you are the first to plunge the matching card and pick it up securely with just your plunger, you win the card! Place the card in front of you to form a score pile.

to remove your plunger from a card, pinch it.

- 4 Play continues and ends when there are as many blue cards left as players in the game.

## PENALTIES: 🍌

If you plunge a card that does not match the card that was flipped, you must remove one blue card from your score pile and place it out of play.

## WINNER: 🍌

Everyone counts the blue cards in their score card pile. Each card is worth 1 point. EXCEPT THE BULL'S EYE CARD! It's worth 3 points. The player with the most wins!

## 🍌 BONUS GAME! "BONKERS BULL'S EYE!"

Shuffle all 48 cards and lays them face up in an 8 x 6 grid in the center of the play area. On the count of three, every player attempts to plunge an animal and then its matching pair. Plunge a card and use your free hand to take it off the plunger only after the card is clearly off the table. All players do this until all the cards are claimed. You gotta be fast because this version of Bull's Eye is bonkers! Everyone counts only the matching pairs they were able to collect. The player who plunged the most matching pairs wins!
